REVISED BID TABULATION UNDER ITB 11-0205

Install Shelter and Walkway at Lake Idamere Park

Initial technical evaluation focused on review of alternate shelters specifically identified by various responding vendors under the “brand name or equal” provision of the ITB has been completed. Determinations in this regard were based on the degree of compliance of an alternate structure with basic functional attributes of the “brand name” shelter such as wind load rating, warranty, degree and type of powder coating, and inclusion of gutters. Vendor responses that specifically identified alternate structures found **not to be equal** to the “brand name” shelter have been excluded from this revised tabulation, and will not be further considered for award.
